Reading notes. Alternating pale-blue and white bands apply to complete profile-year groups. A date in the Received / preprint column is the publisher's submitted date where recorded on the journal or publisher page. A dash means that the corresponding value was not identified. Profile years and author order follow the displayed Google Scholar record; therefore a profile year can differ from the later journal publication year.

Data snapshot. Public Google Scholar profile and linked publisher records, checked 20 August 2026. Scholar metrics are dynamic and may change after this snapshot.
