October 16, 2018.

TO WHOM IT MAY CONCERN

Shri. Rajesh Kumar has joined as project JRF in my research group under the DST-SERB project "*Development of surface plasmon resonance ellipsometry as label-free optical biosensor for ultrasensitive detection of chemical and biological species*". His Ph.D. registration is under due consideration at this moment. He is applying for the 10th INUP Familiarization workshop on Nanofabrication Technologies and BTNT Seminar which will be held at IIT Bombay from November 28 to December 01, 2018. The said workshop and seminar will be very beneficial for his Ph.D. research work. I strongly recommend for his candidature for both the workshop and seminar.
